

# OLLE LELEU BERGKVIST

FULLSTACK  
DEVELOPER

## / ALL ABOUT ME

I'm a 33 year old Swedish multidisciplinary developer working in the cross section of aesthetics and technology. I help clients with tailor-made developments, based on concrete concepts and sophisticated user centered experiences, into real business results. With more than 3 years experience in the industry, I'm focusing on front and backend development with a personal preference for the MERN stack (MongoDB, Express.js, React, Node.js), user experience and brand identity.
